

English

This term we will be exploring persuasive language through persuasive letters. We will also be exploring narratives based around our topic.

Maths

This term Year 6 will be recapping all of their areas of learning in preparation for SATs. We will also be applying our knowledge through real-life problems. Year 5 will be looking at decimals and percentages and perimeter and area.

Religious Education

We will be exploring the topic of 'Creation or Science? – conflicting or complementary?' where we will explore a variety of beliefs about creation and religion.

Art and design

This term we will be exploring our local area and creating pieces of art which demonstrate the natural beauty in our community.

The Battle of Naseby Wise Wolves

Science

In science this term we will be revisiting our 'Light' topic from September which, due to swimming, we were unable to spend adequate time on. We will be studying how light travels, investigating shadows and how we see the objects in the vision.

PSHE

Being my best

This term, Wolves will be exploring ways in which they can stay healthy and safe, both mentally and physically.

Computing

We will be exploring computer design and using programmes to create a birds-eye view of an area.
