

## 1 . Horse riding

Horse riding was originally invented in 6000 BC. Did you know they started of riding with no reigns or no saddle

## 2 . Trojan War

Trojan War is a good story to tell it all started in 1260 When someone from Troy kidnapped lady from grease then grease asked for her back but she would not give her back then grease went into War but not just what grease filter massive hollow horse out of wood then Presented to try the whole of Troy head a massive party and all of try got drunk went to bed then all the soldiers that were actually hiding in the horse got out and killed everyone oh my gosh !!!!

## 3 . the Black Death 1348

The Black Death killed 60% of Europe's entire population which is basically 50 million wow I see why it's called the Black Death.

## 4 . Toys

Toys were originally invented in the 1400s And some look like this!!! Wow just imagine playing with that. It hardly looks like a toy at all . I'd use it as an ornament .

## 5 . christmas became a nationwide holiday

Did you know that christmas was not always a worldwide holiday It only started to be one in 1835 also the first person to celebrate it was the roman emperor constantine.

## 6 . Cars

Cars were originally invented in 1885 and ran on steam. How amazing is that only now we run on petrol and electricity.

Cool!

This is the first car invent

## 7 . pens

Pens were originally in 1888 and looked like this .  
This is a fountain pen but they weren't like the ones  
we have today .....you would have to put the pen into  
a pot with ink in it and pull a small lever on the pen to  
suck up ink.

But before that you would have a feather / quill and leave it in the ink constantly  
to keep writing.

## 8 . color TV

Color TV was invented in 1953 and was made by John logie baird

## 9 . water colors

They were invented in 1880 and are one of my favorite things.

## 10 . internet

The famous internet all around the world was once not invented wow but was only just  
invented in 1983 and now pretty much everyone uses it !!!
