

Busy Badgers: Autumn 2 - Term 2 2021

Dinosaurs!

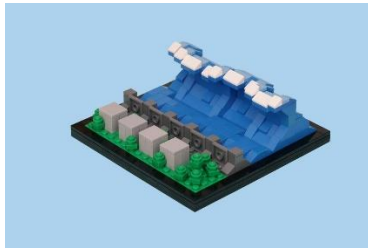

At Naseby, we believe that the main homework for all school children is reading. Reading has been proven to be extremely important in developing children's language acquisition and vocabulary, spelling ability, and overall learning confidence and enjoyment. Children should read for at least a few minutes every evening, and this should be recorded in the back of their reading journals. Reading journals will be checked at least once a week on a Friday.

Along with reading I have created this optional homework chart. I understand that time spent with family, friends, and at outside clubs is extremely important. However, those who do manage to complete a piece of homework will be given a raffle ticket for the class raffle which will be drawn at the end of term. Prizes to be confirmed nearer the time.

Extreme Earth - Create a model volcano or tsunami

We will be creating working model volcanoes in school, but if the children would like to create to also recreate their own models at home or try their hand at creating a model tsunami or earthquake zone, we would love to see photos of them!

Multiplication Maths mosaics

This term we will be moving on to multiplication and vision. A topic that will be particularly important for Year 4 as they have their multiplication test at the end of this academic year. I will upload some maths mosaic sheets on Class Dojo. Each sheet correctly completed will be awarded one raffle ticket.

Create Your own Dinosaur poem, riddle, or rap

It would be brilliant if these could also be read aloud or performed to the class.

Rock identification

Take a photo of a type of rock that is used around your home and/or garden. Explain what type of rock it is and why it has been chosen (What properties does it have?).

Model Dinosaurs

The possibilities here are endless. You could create a model of a known dinosaur or create your own. What you make the model out of is completely up to you. The dinosaur could be made from recyclable materials or food items.

Winter Celebrations

There are lots of different religions and cultures that celebrate festivals at this time of year. Research a festival of your choice and create a fact page about it to share with the class.
